Wildlife Science Center

Adult Camps & Learning Experiences

Forest Lake, Minnesota

www.wildlifesciencecenter.org

The Wildlife Science Center is a non-profit, science based education facility that is home to the largest captive population of privately maintained wolves in the United States. The Center is home to over 40 wolves: gray wolves, critically endangered red wolves and Mexican gray wolves. Other resident animals include: black bears, foxes, lynx, coyote, skunks, raccoons, New Guinea Highland dogs, birds of prey, and a porcupine.

Other Potential Programs:

Photography Experiences
Wildlife Seminar Series
Wolf "Boot" Camp
MN Master Naturalist Training
